

A Level summer transition project

Business Studies

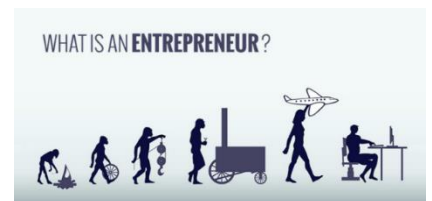

What is an Entrepreneur?

Research an Entrepreneur in relation to a Business or area of your choice e.g. James Dyson, Anita Roddick

Create a detailed biography of the entrepreneur, you should use a wide range of sources and type of your findings ready for the first lessons in Business Studies

Include:-

- Name of Entrepreneur
- Area of Business: what are they / were specifically famous for
- What did they do? How have they changed the face of business?
- What are they most famous for in terms of contributions to Business?

Scottish Independence

As you know the Scotland held a referendum on the decision to leave or remain as part of the UK. The leave campaign lost the vote. However, there is growing resurgence of wanting a second vote and the media has distorted reality with regards to what it means for Scotland and the UK as a whole. Although we do not know what it means for exactly for Business, present some of the possible outcomes? Try to present as a balanced argument.

- It might help if you consider a business or organisation of your choice and consider the impact on trade and labour that leaving would have.
- Consider the positives and negatives.

You should spend about 8 hours on these two tasks (4 hrs on each).

Bring your completed work to the first Business Studies lesson in September
